

Boost Your Benefits

Enjoy added coverage for certain medical conditions

The health of your teeth and gums is part of a bigger picture: your overall wellness. Gum disease is associated with a number of systemic conditions, and people with certain chronic conditions may benefit from additional periodontal (gum) cleanings. That's why your dental plan offers expanded coverage if you have been diagnosed with **diabetes, heart disease, HIV/AIDS, rheumatoid arthritis** or **stroke**.

Here's how opting into this expanded coverage will help you¹:

- periodontal maintenance procedure (D4910), **covered at 80%**
- scaling in presence of moderate or severe gingival inflammation (D4346), **covered at 80%**
